## Experience

**Retune AI Inc** Sep 2023 – Present
*Software Engineer (Remote)* *USA*

- Building re:frame, a platform where people and AI agents write apps that run as soon as the code is saved, with no build or deploy step [Deno] [TypeScript] [Rust]
- Built a Pinecone embedding system with BM25 hybrid search that improved retrieval by **40%**, helping retune.so reach **USD 700K+** in sales within two months of its AppSumo launch
- Built awaken.is, an AI coaching platform (**78%** retention across **500+** users), and the AlterCall Virtual Coach, which helped raise the client's sales by **40–50%**
- Recovered a client's production outage with **zero data changed**. Built a Microsoft Graph tool that turned 2,495 emails into 120 tracked actions

**Pridesys IT Ltd** Nov 2023 – Present
*Software Engineer* *Dhaka, Bangladesh*

- **Architected** Farmers Card, Bangladesh's national farmer registry for **2.5M+ farmers** with 4 mobile apps and a web back office. Built most of the identity and platform services [Spring Boot] [Kafka] [PostgreSQL] [Kubernetes]
- Cut the slowest production update from **60,668 ms to 1.7 ms** and cleared a 53,845-message Kafka backlog by turning off PostgreSQL JIT and adding 4 indexes, without blocking users
- Leading the rebuild of a **7,143-screen** Oracle ERP on React, Spring Boot and PostgreSQL. Attendance replay matches 7,781,343 of 7,781,353 legacy rows
- **Led a team of 11** to ship a SaaS accounting product on Azure: Spring Boot and Kafka microservices, a multi-tenant database at **200 TPS**, and a React frontend

**VIPB Asset Management** May 2026 – Nov 2026
*Software Engineer (Contract)* *Dhaka, Bangladesh*

- As the **sole developer**, replaced the manual Excel operations of **6 mutual funds** with a customer portal and an admin portal that automate the full flow from customer purchase to fund accounting

**BYDO Academy** Sep 2020 – Sep 2021
*Junior Software Engineer (Contract, Remote)* *Dhaka, Bangladesh*

- Built the REST API and an SSLCommerz payment gateway that handled **300+ requests** per day [Java] [MySQL]

## Education

**Bangladesh University of Engineering & Technology (BUET)** Apr 2019 – Jul 2024
*B.Sc. in Computer Science and Engineering (GPA: 3.63 / 4.00). Dean's List Award* *Dhaka, Bangladesh*

- **HSC** 2018, GPA 5.00, Notre Dame College **SSC** 2016, GPA 5.00, Government Laboratory High School

## Publication

**BTVSL: A Novel Sentence-Level Annotated Dataset for Bangla Sign Language Translation**. **I. E. M. Zeeon**, M. M. Mohammad, M. A. Adnan. *IEEE FG 2024*, pp. 1–10. Undergraduate thesis

## Projects

**Grow Your Career**: AI career platform with resume ATS scoring and mentorship [Next.js] [PostgreSQL]

**Porjay**: crowdsourced tracker of hiring stages at Bangladeshi companies [Next.js] [PostgreSQL]

**Trip-Tix**: microservice-based online ticketing for Bangladesh transport [Node.js] [PostgreSQL]

## Awards & Leadership

**Winner**, BASIS National ICT Award 2020 **First runner-up**, BUET CSE Fest Hackathon 2022 (API & Cloud)

**Finalist**, top 10 of 500+ teams, Therap Java Fest 2022 **Vice Chair (Technical)**, IEEE CS BUET, 2023–24

## Technical Skills

**Languages**: Java, TypeScript, JavaScript, Python, C, C++, Bash, SQL (PostgreSQL, MySQL, Oracle)
**Frontend**: React, Next.js, Redux Toolkit, Tailwind CSS, Shadcn
**Backend and AI**: Spring Boot, Node.js, Express, Fastify, Prisma, Kafka, OpenAI API, Pinecone, BM25
**Infrastructure**: Docker, Kubernetes, Helm, Patroni, GitHub Actions, Azure, GCP, Railway, Cloudflare
